MAY PEACE PREVAIL ON EARTH

The Peace Pole Project

Peace Poles carry the message, May Peace Prevail On Earth, in the languages of the world. They have been planted the world over and are now recognized as one of the most prominent international symbol and monument dedicated to peace on earth.

History

After experiencing the aftermath of the second World War and the first atomic bombs which fell on Nagasaki and Hiroshima, the message, May Peace Prevail On Earth, was authored in 1954 by the Japanese writer, poet and philosopher, Masahisa Goi. The planting of Peace Poles was started in Japan as a grassroots project to spread the peace message in 1975 and has grown into an international peace movement. It is estimated that there are more than 200,000 Peace Poles that have been dedicated on every continent and in almost every country in the world.
